

StageBio is the leading international provider of preclinical and clinical histology, pathology, image analysis, and specimen biorepository and archiving services for the biopharmaceutical, medical device and contract research industries. StageBio's state of the art facilities have been providing our clients archiving and biorepository services both internally and externally for over 18 years. Our clients know they can count on us to offer reliable service that is custom to meet their needs.

### What Sets Us Apart: *Expertise, Quality, Efficiency*

StageBio's dedication to maintaining quality standards while adapting to the market needs allows us to be a trusted provider for our clients. StageBio is committed to delivering reliable sample management for our clients in a timely manner, and we have proven time and again to uphold to our clients standards, including through successful FDA visits. Additionally, we offer custom support and offerings to clients worldwide.

### Industry Leadership

StageBio's biorepository and archiving team's expertise and strategic vision is a game changer in this industry. StageBio's CEO [Lori Ball](#) is a pioneer in the outsourced biorepository business. Lori's proven leadership in the industry during the formative years of growth and regulation development, combined with her current insights, allows our team to deliver the high quality and reliable customer service our clients count on. Our biorepository team overall includes over 50 years of experience in GLP Archiving Services.

## Locations

StageBio maintains an extensive laboratory support organization to offer sample management services. Current locations include the major metropolitan areas of the mid-Atlantic, mid-west, Boston and EU regions. StageBio can facilitate the transportation of materials nationally and internationally.

## Pricing

StageBio's embedded infrastructure and shared overhead enables us to provide biorepository services at a more competitive price point than any standalone service provider. Instead of charging multiple up front fees, we eliminate initial onboarding costs and provide pricing approaches that are tailored to meet your needs. Our priority is to maximize your access to your samples while keeping costs low.

Whether you are a small or mid-sized biologics organization, large pharmaceutical company, or medical center, StageBio's team offers proven quality results, insight and flexibility to help meet your needs.
